[How Install Gadgets Vista](#)

The screenshot shows a Windows Vista desktop with a blue and green background. The Gadget Gallery window is open, displaying a grid of various gadgets including a clock, launcher, notepad, picture puzzle, and processor control. A yellow sticky note is placed over the gallery, reading: "Original Vista sidebar in Windows XP Drag your gadgets from <-- here to the sidebar --->". On the right side of the desktop, a sidebar contains several installed gadgets: a clock, a Bing search box, and a picture puzzle. The taskbar at the bottom shows the Start button, several open applications, and the system tray with the time 12:12.
